### **Auditors' Report**

We have audited the financial statements set out on pages 1 to 27, and have received all the information and explanations which we considered necessary. These financial statements are the responsibility of the company's management. Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the financial statements of certain subsidiaries resident outside of Jamaica, which reflect revenues outside the group of \$282,778,000 and \$275,631,000 for the years ended 3 May 2003 and 27 April 2002, respectively. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for those subsidiaries is based solely on the report of the other auditors.

We conducted our audit in accordance with International Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, based on our examination and on the reports of the auditors of those subsidiaries not audited by us, proper accounting records have been kept and the financial statements, which are in agreement therewith, give a true and fair view of the state of affairs of the group and the company as at 3 May 2003 and of the results of operations and cash flows of the group, and changes in equity of the group and the company for the year then ended, so far as concerns the members of the company, in accordance with Jamaican generally accepted accounting principles and comply with the provisions of the Jamaican Companies Act.

Jabexco Cayman Limited is consolidated in these accounts on the basis of significant control by virtue of an agreement with other investors and through significant control exercised by Jamaica Broilers Group Limited over the financial and operating policies of the company.

During the year, the company sold its 20% ownership in Capital and Credit Holdings Limited. The gain on disposal of the investment after recording the company's share of results to the period ended 31 March 2003, has been disclosed as an exceptional item (Note 7).

During the year, the Group invested in two (2) wholly owned subsidiaries. Atlantic United Insurance Company was established in the Cayman Islands to provide insurance on behalf of the Group, whereas Aquaculture Jamaica Limited, a wholly owned subsidiary of the company, acquired the ordinary shares of Aqualapia Limited.

### (c) Equity accounting

The financial statements of the holding company have been prepared on the equity basis whereby its share of the post acquisition changes in the net assets of subsidiaries and associated companies is recognised as an increase or decrease in investment and retained earnings and reserves.

### (d) Use of estimates

The preparation of financial statements in conformity with Jamaican generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Notes to the Financial Statements 3 May 2003

### 2. Significant Accounting Policies (Continued)

### (e) Fixed assets and depreciation

Fixed assets are stated at cost or valuation. Depreciation is calculated for all fixed assets, except freehold land, on the straight line basis at such rates as will write off the assets over the period of their expected useful lives. The expected useful lives are as follows:

| Freehold buildings      | 11 - 100 years |
|-------------------------|----------------|
| Leasehold property      | Life of lease  |
| Machinery and equipment | 4 – 33 years   |
| Furniture and fixtures  | 10 years       |
| Motor vehicles          | 3 – 5 years    |

Gains and losses on disposal of fixed assets are determined by reference to their carrying amount and are taken into account in determining operating profit.

### (f) Quoted and other investments

Quoted and other investments are shown at cost and provision is only made where, in the opinion of the Directors, there is a permanent diminution in value. Where there has been a permanent diminution in the value of an investment, it is recognised as an expense in the period in which the diminution is identified.

On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the profit and loss account.

### (g) Deferred expenditure

This is amortised over the expected period of benefit or in the case of leasehold property over the shorter of the remaining life of the asset or the remainder of the lease term.

### (h) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined as follows:-

- (i) Flocks in field together with pullets, at accumulated cost of chicks, feed and medication, and in respect of breeder flocks, at accumulated production costs less depreciation over 48 weeks.
- (ii) Processed broilers, beef and fish, at accumulated cost of growing and processing, or landed cost.
- (iii) Finished feeds and fertilizers, at cost of production.
- (iv) All other items of inventory, at landed cost or purchase price.

Notes to the Financial Statements 3 May 2003

### 2. Significant Accounting Policies (Continued)

### (i) Trade receivables

Trade receivables are carried at anticipated realisable value. An estimate is made for doubtful receivables based on a review of all outstanding amounts at the year end. Bad debts are written off during the year in which they are identified.

### (j) Cash and cash equivalents

For the purposes of the cash flow statement, cash and cash equivalents comprise cash at bank and in hand, and deposits held at call with banks, net of bank overdraft and short term loans.

### (k) Leases

Leases of fixed assets where the group assumes substantially all the benefits and risks of ownership are classified as finance leases. Finance leases are capitalised at the estimated present value of the underlying lease payments. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the finance balance outstanding. The corresponding lease obligations, net of finance charges, are included in finance lease obligations. The interest element of the finance charge is charged to the profit and loss account over the lease period. The fixed assets acquired under finance leasing contracts are depreciated over the useful lives of the assets.

Leases of assets under which all the risks and benefits of ownership are effectively retained by the lessor are classified as operating leases. Payments made under operating leases are charged to the profit and loss account on a straight-line basis over the period of the lease.

### (I) Revenue recognition

Sales are recognised upon delivery of products and customer acceptance or performance of services, net of discounts and allowances. Interest income is recognised on the accruals basis.

### (m) Foreign currencies

- (i) Transactions in currencies other than the principal currency are accounted for at the exchange rates in effect on the transaction dates.
- (ii) Assets and liabilities denominated in foreign currencies are translated into Jamaican dollars at the rates of exchange prevailing at balance sheet date and the resulting gain or loss reflected in the profit and loss account except that translation differences on foreign currency liabilities relating to the acquisition of fixed assets are included in the carrying amount of the related fixed assets.
- (iii) The financial statements of the foreign subsidiaries are translated into Jamaican dollars using the exchange rate prevailing at balance sheet date. The resultant gains or losses are reflected in capital reserve.

Notes to the Financial Statements 3 May 2003

### 2. Significant Accounting Policies (Continued)

### (n) Financial instruments

Financial instruments carried on the balance sheet include cash and deposits, investments, receivables, affiliates, payables, bank overdrafts and short term loans and long term liabilities. The particular recognition methods adopted are disclosed in the individual policy statements associated with each item.

The fair values of the group's financial instruments are discussed in Note 26.

### (o) Pension costs

The group accrues and funds these costs annually and such costs are actuarially determined.

### (p) Deferred taxation

Deferred taxation is not recognised in these financial statements because timing differences are not considered likely to reverse in the foreseeable future.

### (q) Goodwill

Goodwill is recorded at cost and represents the excess of the value of consideration paid over the net assets acquired. Amortisation is on the straight line basis over the economic useful life, estimated by the Directors to be ten (10) years.

### (r) Comparative information

Where necessary, comparative figures have been reclassified to conform with changes in presentation in the current year.

### 3. Turnover

The group turnover represents the price of goods and services sold to customers after deducting discounts and allowances.

### 8. Taxation

(a) The egg production operation of Jamaica Poultry Breeders Limited was relieved from income tax until 1989 by virtue of the provisions of the Industrial Incentives Act. With effect from 1990 the egg production and crop growing operations are relieved from income tax for ten years under the provisions of the Income Tax (Approved Farmers) Act. A further five year period of relief was granted in 2000 by the Ministry of Agriculture.

Under the Income Tax Act mentioned above, the fish farming operations of Aquaculture Jamaica Limited were also relieved from income tax for a period of ten years ended April 1993. This period was extended to April 1998.

Subject to agreement by the Taxpayer Audit and Assessment Department, profits in the holding and subsidiary companies that are available for distribution to shareholders resident in Jamaica, without deduction of income tax, amount to approximately \$92,710,000.

(b) Taxation charge is based on the group profit for the year, adjusted for taxation purposes and consists of:

The group tax charge for both years is disproportionate to the reported profit as a result of the utilisation of tax losses, special capital allowance and tax credit on bonus shares. The special capital allowance of \$62,737,000 (2002 - \$51,833,000) is subject to approval by the Ministry of Industry and Commerce.

(c) Subject to agreement by the Taxpayer Audit and Assessment Department, losses available for offset against future profits of local entities amount to approximately \$15,054,000 and can be carried forward indefinitely.

Fixed assets, excluding furniture and fixtures, motor vehicles and assets having a fixed option price, were revalued during 1988 and 1990 and land and buildings during 1993 by Orville Grey and Associates and D.C. Tavares & Finson Company Limited as follows:

- a) Land at fair market value
- b) Buildings and machinery and equipment at depreciated replacement cost.

All other assets and subsequent additions are stated at cost. The gains arising on the above revaluations have been credited to capital reserve (Note 23).

Included in fixed assets for the group are motor vehicles and equipment costing \$112,511,000 (2002 - \$161,034,000), which have been acquired under finance leases (Note 24).

| 1,027,952,000 (2002 – 856,626,000) Ordinary stock units of 50 cents each | 513,976 | 428,313  |

It was resolved during the year that the authorized share capital of the company be increased to \$519,000,000 by the creation of 172,000,000 ordinary shares of 50 cents each, such shares to rank pari passu with the existing ordinary shares of the company. From the authorised shares, 171,326,000 ordinary shares were then issued as fully paid bonus shares by the capitalisation of \$85,663,000 from earnings for the year on the basis of one share for every five stock units held. The shares were then converted into stock units.

Loans, guarantees and other banking facilities extended by Bank of Nova Scotia Jamaica Limited, Citibank N.A., and National Commercial Bank Jamaica Limited to the group are secured by debentures governed by an intercreditor agreement between the parties. Guarantees have been provided by the holding company on behalf of certain subsidiaries (Note 21).

The Bank of Nova Scotia Jamaica Limited Economic Growth Fund loan, issued through the Development Bank of Jamaica, is secured by existing and new debentures and collateral security held by the bank creating charges over the assets of Best Dressed Chicken Division and Master Blend Feeds Limited.

The Citi-Merchant Bank Ltd 3 year Bond is guaranteed by promissory notes.

The Development Bank of Jamaica Limited loan is repayable by 21 consecutive quarterly installments commencing March 2003. It is secured by a promissory note to the value of the loan.

The Jamaica Exporters Association Limited loan is guaranteed by National Commercial Bank of Jamaica Limited.

Under the terms of certain agreements with the Bank of Nova Scotia Jamaica Limited and Citibank N.A, the company and the group are required to maintain certain financial ratios. At 3 May 2003, the company was in compliance with these requirements.

Notes to the Financial Statements 3 May 2003

### 25. National Housing Trust

Contributions to the National Housing Trust not included in these financial statements are recoverable in the years 2003 to 2005 as follows:

The Group
The Company

\$243,000 \$190,000

### 26. Financial Instruments

### (a) Currency risk

The group balance sheet at 3 May 2003 includes aggregate net foreign liabilities of approximately US\$6,224,000 (2002 – US\$13,900,000) in respect of transactions arising in the ordinary course of business.

### (b) Credit risk

The company has no significant concentration of credit risk. Cash at bank and deposits are placed with substantial financial institutions.

### (c) Interest rate risk

Interest rate risk mainly arises through interest-bearing liabilities and assets. Interest rate risk is managed by the group using various techniques.

### (d) Fair values

The amounts included in the financial statements for cash and deposits, receivables, affiliates, payables, bank overdrafts and short term loans reflect their approximate fair value because of the short term to maturity. The directors are of the opinion that the carrying values of other financial instruments, such as long term liabilities and debt instrument investments approximate their fair values as they are contracted at market rates. The fair value of other investments is determined based on quoted market prices, and where market prices are not available, an approximation of fair value is based on the net underlying assets of the investee (Note 12).

Notes to the Financial Statements 3 May 2003

### 27. Commitments and Contingencies

- (a) The company has issued a letter of comfort indicating its intention to provide financial support to its subsidiary International Poultry Breeders LLC.
- (b) The company had capital commitments at year end of \$5,462,000 (2002 -\$Nil) in respect of projects being undertaken.
- (c) The group has obligations under long term operating leases for premises. Future minimum lease payments for such commitments are as follows:

### 28. Pension and Superannuation Schemes

The Group participates in a defined benefit contributory pension scheme which is open to all permanent employees and is administered by an external agency. The basis of contribution by employer and employee is in line with actuarial recommendations. Benefits under the schemes are based on the average salary for the last two years of service or the two years in which the highest salaries of the employee have been earned.

An actuarial valuation of the scheme as at 31 October 2001, revealed that there was a past service surplus of \$181,700,000. A refund of \$100,000,000 was made to the employer in May 2002 (Note 7).

A recent actuarial valuation of the scheme as at 30 April 2003, revealed that there was a past service surplus of \$41,800,000.
